Our Approach to SIL

At Bridge DS, we understand that **home is more than just a place to live**. Our focus is on supporting each participant to have choice and control over their daily life while receiving the level of assistance they need.

Our support can include assistance with:

- Personal care and daily routines
- Meal preparation and cooking
- Household tasks
- Medication support
- Community access and social activities
- Appointments and daily commitments
- Developing independent living skills
- Maintaining relationships and community connections
- Working towards individual NDIS goals

We work closely with participants, families, support coordinators, allied health professionals and other members of the participant's support team to provide consistent and coordinated support.

Who Might This Home Suit?

The Oran Park home may suit an adult participant looking for a supportive shared living environment and who would benefit from assistance with daily living while developing or maintaining their independence. The home currently has 1 female and 1 male. Before moving in, we take the time to understand the participant's support needs, personality, routines, preferences and goals to help determine whether the home and current household are a suitable match.

Come and Have a Look

Choosing a SIL home is a big decision. We encourage participants, families and support coordinators to **come and meet our team, see the home and ask questions** before making any decisions. Our goal is to make the transition into SIL as comfortable and positive as possible, with the participant's choice and preferences at the centre of the process.

Bridge DS – Supporting you to live life your way.
